NOV 22 1991

Mr. Robert Thomson
U.S. Environmental Agency, Region III
841 Chestnut Building
Philadelphia, PA 19107

Dear Mr. Thomson:

As discussed in a November 14, 1991 telephone conversation with Ms. Sharon Waligora of the Environmental Programs Department, Commander, Naval Base, Norfolk will host an Installation Restoration Program, Technical Review Committee (TRC) meeting December 18, 1991. The meeting will be held from 9:00 a.m. to 12:15 p.m. at the Navy Lodge, 7811 Hampton Boulevard in Norfolk. The Navy Lodge is located across from the Armed Forces Staff College, two miles south of the Naval Base; a Base pass is not required. The location of the Navy Lodge is indicated on the enclosed map.

The meeting will focus on five sites: Camp Allen Landfill, Former PCB Transformer Storage Area near Building P-71, Q Drum Storage Area, CD Landfill and Building LP-20. To provide you with background information for the meeting, recently prepared reports on the sites are enclosed. A report on the Camp Allen Landfill is not yet available. The Remedial Investigation/Feasibility Study (RI/FS) and Remedial Action Plan for the Transformer Storage Area were forwarded to you in an October 9, 1991 Atlantic Division, Naval Facilities Engineering Command letter. We realize the reports are quite lengthy, so we have arranged for our contractors to summarize their reports during the TRC meeting.

If you require any additional information, please contact Ms. Sharon Waligora at (804) 444-3009. We look forward to meeting with you and appreciate your participation as a member of the TRC.

Sincerely,

CHERRYL F. BARNETT
Director, Environmental Programs
By direction of the Commander
